PROFESSIONAL SUMMARY

DevOps Engineer and Research Associate at CloudThat Technologies with hands-on experience in Docker, Kubernetes, CI/CD pipelines, AWS Cloud, Microsoft Azure, and Python. Experienced in modernizing applications into cloud-native microservices on Amazon EKS, implementing GitOps with Argo CD, automating infrastructure with Terraform, and centralized monitoring using Prometheus, Grafana, and Loki. Microsoft Certified: Azure Administrator Associate (AZ-104).

WORK EXPERIENCE

Research Associate | CloudThat Technologies Pvt. Ltd.

July 2026 – Present

- Promoted from Research Intern in recognition of contributions to Cloud and DevOps research initiatives.
- Leading research and implementation of Cloud and DevOps solutions with a focus on Microsoft Azure services.
- Driving CI/CD practices, containerization with Docker and Kubernetes, and automation strategies to optimize deployment workflows.
- Contributing to projects aimed at optimizing cloud infrastructure, improving system performance and reliability.

Research Intern | CloudThat Technologies Pvt. Ltd.

January 2026 – July 2026

- Conducted research and implementation of Cloud and DevOps solutions with a focus on Microsoft Azure services.
- Worked on CI/CD practices, containerization with Docker and Kubernetes, and automation strategies to optimize deployment workflows.
- Contributed to projects aimed at optimizing cloud infrastructure, improving system performance and reliability.

Internship Trainee – AWS Cloud | Teerthanker Mahaveer University

July 2024 – August 2024

- Gained hands-on experience in AWS Cloud fundamentals — EC2, S3, RDS, VPC, and IAM — and cloud infrastructure management.

Internship Trainee – Python | CETPA Infotech Pvt. Ltd.

July 2023 – August 2023

- Completed Python training; developed a Customer Management System with Tkinter GUI and MySQL backend.

PROJECT EXPERIENCE

AWS Cloud Modernization of Legacy Application

Technologies: Docker, AWS EKS, ECR, CloudFront, WAF, S3, RDS, Cognito, SQS, SNS, Secrets Manager, IAM, IRSA, ALB, VPC, Terraform, Helm, Argo CD, GitLab CI/CD, Prometheus, Grafana, Loki, KEDA

- Modernized a legacy monolithic application into 5 independently deployable microservices on Amazon EKS using the Backend-for-Frontend (BFF) pattern and AWS Transform.
- Implemented GitOps-based deployments with Argo CD App of Apps pattern, Helm charts, Amazon ECR, and GitLab CI/CD.
- Automated full AWS infrastructure provisioning using Terraform (modular architecture, S3 backend); configured CloudFront, WAF, and S3 with Origin Access Control for secure edge delivery.
- Implemented autoscaling with Kubernetes HPA and KEDA; managed secrets via AWS Secrets Manager; applied least-privilege IAM and IRSA security best practices.
- Established centralized monitoring and logging using Prometheus, Grafana, and Loki for all EKS workloads.

Cloud-Native Doctor Appointment System (AWS, Kubernetes & GitOps)

Technologies: AWS EKS, React, Node.js, Terraform, Jenkins, Docker, ECR, ArgoCD, Kubernetes, Ingress Load Balancer

- Designed and deployed a scalable doctor appointment booking app on AWS EKS with GitOps workflows.
- Containerized React frontend and Node.js backend; built Jenkins CI/CD pipelines to push images to ECR; used ArgoCD for Kubernetes deployments with Ingress Load Balancer for high availability.

Cost-Effective Compliance Monitoring for AWS Security Groups & S3 Buckets

Technologies: AWS Lambda, CloudWatch, SNS, EC2, S3, IAM Roles, Python, Boto3

- Built a serverless compliance monitoring solution using AWS Lambda to auto-detect misconfigurations in security groups and public S3 buckets.
- Reduced monitoring costs by 25% and cut manual compliance effort by 50% through automated periodic scans.

Cloud Storage & Media Sharing Solution for a Photo Studio

Technologies: AWS EC2, S3 Multipart Upload, IAM Roles, Python

- Developed a Python-based media management solution using S3 multipart uploads with a secure presigned URL sharing dashboard.
- Improved upload performance by 30% and streamlined client sharing processes by 50%.

TECHNICAL SKILLS

Cloud Platforms	AWS (EC2, EKS, ECR, S3, RDS, VPC, IAM, IRSA, Lambda, Cognito, SQS, SNS, CloudFront, WAF, Secrets Manager, CloudWatch, Route 53, ELB, ASG), Microsoft Azure
DevOps & CI/CD	Jenkins, GitHub Actions, GitLab CI/CD, Argo CD, GitOps, Helm
Containers & IaC	Docker, Kubernetes (EKS, HPA, KEDA), Terraform
Monitoring	Prometheus, Grafana, Loki, AWS CloudWatch
Programming	Python (Primary), Shell Scripting, SQL, JavaScript, HTML & CSS
Databases	MySQL, PostgreSQL, MongoDB
Developer Tools	Git, GitHub, GitLab, VS Code, PyCharm, Linux

EDUCATION

Bachelor of Technology – Computer Science Engineering

Teerthanker Mahaveer University, Moradabad | 2021 – 2025

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- AWS Academy Graduate – AWS Academy Cloud Foundations
- AWS Educate: Introduction to Generative AI
- AWS Cloud Quest: Cloud Practitioner
- 40-Hour Skill Enhancement Course on Cloud Infrastructure using AWS
- Python Training & Git Training – IIT Bombay
